

JOIN HUDDERSFIELD'S ULTRAFAST FUTURE!

Did you know that some businesses have already connected to the CityFibre "Gigabit City Huddersfield" ultrafast broadband network?

Scroll Down For More

Advance your connectivity. Advance your business.

Ever wondered what it would be like to have the ultimate business internet connection? One that's future-proof and scalable to your company's needs, and fast... ultrafast. One that doesn't buffer or take forever to download huge files. Well, you no longer have to wonder. You can have it now. It's unlikely that you'll ever need another connection again!

Gigabit Fibre is here, and if you didn't already know, Huddersfield is now one of CityFibre's Gigabit Cities and we - Diva Telecom - are their B2B partner.

What this means for you and your business:

Interruption-free Productivity: Think of what you can achieve without unnecessary downtime holding your team back! No more dipping away from desks to make a hot drink because something's taking too long to upload. Instead, you get a seamless, satisfying user experience.

Scalable Bandwidth: Need 500MB or prefer 1GB? You can upgrade easily at any time with Gigabit Fibre fitting your needs. It's connectivity that doesn't stand still.

Maximise Related Investments: Get the very best out of cloud storage, hosted application and VoIP simultaneously! Use them with confidence to improve company productivity.

True Value For Money: Considering it's likely the only internet connection you'll ever need, it comes with a guaranteed ROI. With minimum set-up costs and then only £10.30 to £12.90 per day, or just £8.06 if you qualify for a DCMS voucher, it's sure to pay for itself.
